1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

GoldQuest Mining Corp. (the "Company" or "GoldQuest") is a publicly listed company incorporated in British Columbia on July 12, 1989 and its shares are listed on the TSX Venture Exchange under the symbol "GQC". The Company together with its subsidiaries (collectively referred to as the "Company") is engaged in the identification, acquisition and exploration of mineral properties in the Dominican Republic. The Company's registered office is located at Suite 2600, 595 Burrard Street, Vancouver, British Columbia, V7X 1L3.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of evaluation and exploration properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values. The Company's exploration assets are located outside of Canada and are subject to the risk of foreign investment, including political uncertainty, increases in taxes and royalties, renegotiation of contracts and currency exchange fluctuations.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, other land claims and non-compliance with regulatory and environmental requirements.

These unaudited interim condensed consolidated financial statements have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at March 31, 2016, the Company had not advanced its property to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to funds operating costs over the next twelve months with cash and cash equivalents and through further equity financings.

The unaudited interim condensed consolidated financial statements of GoldQuest for the three months ended March 31, 2016 were approved by the Board of Directors on May 25, 2016.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These unaudited condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These financial statements comply with International Accounting Standard 34, Interim Financial Reporting.

Basis of presentation

These unaudited condensed consolidated interim financial statements include the accounts of GoldQuest and its subsidiaries. This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2015. Certain amounts in prior periods have been reclassified to conform to the current period presentation.

3. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

New standards and interpretations not yet adopted

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for future accounting periods. The following have not yet been adopted by the Company and are being evaluated to determine their impact.

• IFRS 9: New standard that replaced IAS 39 for classification and measurement, tentatively effective for annual periods beginning on or after January 1, 2018.

4. CASH AND CASH EQUIVALENTS

The Company's cash and cash equivalents are broken down as follows:

	March 31, 2016	December 31, 2015
Cash	\$ 4,016,930 \$	4,371,100
Term deposits	35,000	35,000
	\$ 4,051,930 \$	4,406,100

5. AMOUNTS RECEIVABLE

The Company's amounts receivable are broken down as follows:

	March 31, 2016	December 31, 2015
Harmonized sales tax receivable and value-added tax receivable	\$ 86,937	\$ 54,832

Precipitate Gold Corporation	300,000	27,000	0.090	27,000

Portex Minerals Inc.

On April 30, 2012, the Company received 15,151,273 shares of Portex Minerals Inc. ("Portex") with a fair value of \$909,076 in exchange for the sale of its wholly owned entities with business interests in Spain.

During the year ended December 31, 2015, the Company reduced the carrying value of the 15,151,273 shares of Portex to \$nil as it determined the impairment was permanent given the financial conditions of Portex.

Precipitate Gold Corporation

On September 30, 2015, the Company reached a data sharing and collaboration agreement (the "Agreement") with Precipitate Gold Corporation ("Precipitate"). According to the Agreement, the Company and Precipitate will share all current and future Tireo belt exploration data in a collaborative effort to assist and accelerate the search for new gold discoveries in the Dominican Republic's Tireo volcanic belt. In exchange of the exploration data, Precipitate agreed to issue 300,000 common shares to the Company.

During the year ended December 31, 2015, the Company received 300,000 shares from Precipitate with a fair value of \$24,000.

As at March 31, 2015, the Company recognized \$31,500 as the fair value of the 300,000 common shares received from Precipitate (December 31, 2015 – \$27,000). The change in fair value of \$4,500 for the three months ended March 31, 2016 is recognized as other comprehensive income (March31, 2015 – \$nil).

Dominican Republic	\$	1,247,000 \$		- \$	1,247,000

Dominican Republic – 100% owned

On August 5, 2009, the Company entered into a purchase agreement with Gold Fields Dominican Republic BVI Limited ("GFL") to regain full ownership of its gold-focused portfolio in the Dominican Republic. As consideration for GFL's interest in the joint venture projects, the Company issued 8,600,000 common shares and granted a 1.25% Net Smelter Royalty ("NSR") on the claims in favour of GFL.

The transaction was completed on November 18, 2009 with the issuance of the shares at an estimated fair value of \$1,247,000.

11. SHARE CAPITAL (continued)

e) Earnings (loss) per share

The Company calculated the basic earnings (loss) per share by using the weighted-average number of shares outstanding during the period. The diluted earnings per share reflects the potential dilution of common share equivalents, such as outstanding stock options and warrants, in the weighted average number of common shares outstanding during the period. In determining the weighted average number of common shares outstanding during the period for the diluted loss per share, warrants and options are not included as the impact would be anti-dilutive.

12. RELATED PARTY TRANSACTIONS AND BALANCES

The financial statements include the accounts of GoldQuest Mining Corp. and its subsidiaries listed in the following table:

		Equity Onwers	hip as at
Name	Country of Incorporation	March 31, 2016	December 31, 2015
GoldQuest Mining (BVI) Corp	British Virgin Islands	100%	100%
Goldquest Dominicana SRL	Dominican Republic	100%	100%

Balances and transactions between the Company and its subsidiaries have been eliminated on consolidation and are not disclosed in this note.

a) Related party transactions

The Company's related parties as defined by IAS 24, *Related Party Disclosures*, include the Company's subsidiaries (above), and the following directors, executive officers, key management personnel, and enterprises which are controlled by these individuals:

Related Party	Relationship

Quantum Advisory Partners LLP	A partnership in which the CFO is a partner
Jeremy Niemi	Vice President, Exploration
Felix Mercedes	Country Manager, Dominican Republic

The Company considered the executive officers and directors as the key management of the Company.

12. RELATED PARTY TRANSACTIONS AND BALANCES (continued)

a) Related party transactions (continued)

Total compensation of key company personnel for the three months ended March 31, 2016 and 2015 is as follows:

		For the three months ended				
	Mar	ch 31, 2016	Mar	ch 31, 2015		
Directors' fees	\$	21,000	\$	21,000

	\$	295,622	\$	861,907		

During the three months ended March 31, 2016, the Company paid professional fees of \$36,764 (March 31, 2015 – \$33,020) to Quantum Advisory Partners LLP, a partnership in which the CFO is an incorporated partner, for professional services including accounting, corporate secretarial, transaction support and tax compliance.

b) Related party balances

The balances due to the Company's directors and officer included in accounts payables and accrued liabilities were \$49,711 as at March 31, 2016 (December 31, 2015 – \$25,629), which were paid subsequent to March 31, 2016. These amounts are unsecured, non-interest bearing and payable on demand.

13. COMMITMENTS

Commitments

The Company is a party to certain management contracts. These contracts contain clauses requiring that \$1,530,000 be paid to certain management personnel upon a change of control of the Company. As the likelihood of these events taking place is not determinable, the contingent payments have not been reflected in these consolidated financial statements.

14. SEGMENTED INFORMATION

The Company has one reportable segment, being the evaluation and exploration of mineral exploration properties in one geographic region: Dominican Republic. The Company's assets and liabilities are as follows:

	Dominican				
	Canada		Republic		Total
As at March 31, 2016

15. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue the evaluation and exploration of its mineral exploration properties and to maintain a flexible capital structure, which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes the components of share capital.

There were no changes to the Company policy for capital management during the three months ended March 31, 2016.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, acquire or dispose of assets, or adjust the amount of cash and cash equivalents and short-term investments. In order to maximize ongoing development efforts, the Company does not pay out dividends. The Company and its subsidiaries are not subject to any externally imposed capital requirements.

The Company's investment policy is to invest its excess cash in very low risk financial instruments such as term deposits or by holding funds in high yield savings accounts with major Canadian banks. By using this strategy the Company preserves its cash resources and is able to marginally increase these resources through the yields on these investments. The Company's financial instruments are exposed to certain financial risks, which include currency risk, credit risk, liquidity risk and interest rate risk.

The Company expects that its current capital resources will be sufficient to fund its present operational commitments and working capital needs for the coming twelve months.

16. FINANCIAL INSTRUMENTS

a) Fair value

The carrying values of cash and cash equivalents, amounts receivable, and accounts payable and accrued liabilities approximate their fair values due to the relatively short period to maturity of those financial instruments. Long-term investment is determined by the closing market price of the securities held by the Company.

As at March 31, 2016

	Loans and receivables and		Assets at fair value through	Avai	ilabe-for-sale	
	ot	her liabilities	profit or loss		assets	Total
Cash and cash equivalents	\$	4,016,930	\$ 35,000	\$	- \$	4,051,930
Amounts receivable		14,123	-		-	14,123
Long-term investment		-	-		31,500	31,500
Accounts payable and accrued liabilities		621,969	-		-	621,969

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs that are not based on observable market data.

As at March 31, 2016, the financial instruments recorded at fair value on the consolidated statement of financial position are cash equivalents which are measured using Level 2 of the fair value hierarchy and long term investments, except for the shares of Portex, measured using Level 1 of the fair value hierarchy.

16. FINANCIAL INSTRUMENTS (continued)

b) Financial risk management

<u>Credit risk</u>

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company manages its credit risk through its counterparty ratings and credit limits.

The Company's cash and cash equivalents and guaranteed investment certificates are held through large Canadian financial institutions. Guaranteed investment certificates are composed of financial instruments issued by Canadian banks and companies with high investment-grade ratings. These instruments mature at various dates over the current operating period and are cashable on the maturity date.

The total cash and cash equivalents, guaranteed investment certificates and amounts receivable represent the maximum credit exposure. The Company limits its credit risk exposure by holding cash and cash equivalents and guaranteed investment certificates with reputable financial institutions with high credit ratings. The Company's amounts receivable balance is not significant and does not represent significant credit exposure as it is principally due from the Government of Canada.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

The Company's expected source of cash flow in the upcoming year will be through equity financings.

The Company maintained sufficient cash and cash equivalents at March 31, 2016 in the amount of \$4,051,930, in order to meet short-term business requirements. At March 31, 2016, the Company had accounts payable and accrued liabilities of \$621,969. All accounts payable and accrued liabilities are current.

<u>Market risk</u>

The significant market risks to which the Company is exposed are interest rate risk, currency risk and commodity price risk.

16. FINANCIAL INSTRUMENTS (continued)

b) Financial risk management (continued)

Interest rate risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash and cash equivalents are held mainly in high yield saving accounts and term deposits and therefore there is currently minimal interest rate risk. Because of the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of March 31, 2016.

The Company's interest rate risk principally arises from the interest rate impact of interest earned on cash and cash equivalents. A 1% change in interest rates on cash and cash equivalents outstanding at March 31, 2016 would result in a \$40,519 change to the Company's net loss for the three months ended March 31, 2016.

Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities and long-term investment are held in Canadian Dollars ("CAD"), US Dollars ("USD") and Dominican Pesos ("DOP"); therefore, USD and DOP accounts are subject to fluctuation against the Canadian dollar.

The Company had the following balances in foreign currency as at March 31, 2016:

	in CAD	in USD	in DOP	
Cash and cash equivalents	2,892,380	799,787	4,328,847	
Amounts receivable	82	-	496,147	
Long-term investment	31,500	-	-	
Accounts payable and accrued liabilities	(516,695)	(14,880)	(3,038,132)	
	2,407,267	784,907	1,786,862	
Rate to convert to \$1.00 CAD	1.000	0.7712	35.3357	
Equivalent to Canadian dollars	2,407,267	1,017,789	50,567	

Based on the above net exposures as at March 31, 2016, and assuming that all other variables remain constant, a 10% appreciation or depreciation of the CAD against the USD and DOP would have had the following impact:

	Additional foreign exchange gain (loss) (before tax) (in CAD)						
		USD	DOP			Total	
For the three months ended March 31, 2016							
If CAD appreciated by 10%	\$	101,779	\$	5,057	\$	106,836	
If CAD depreciated by 10%		(101,779)		(5,057)		(106,836)	

16. FINANCIAL INSTRUMENTS (continued)

b) Financial risk management (continued)

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from interest rate risk, financial market risk, or currency risk.

As at March 31, 2016, the Company held 15,151,273 and 300,000 common shares of Portex and Precipitate, respectively, which are publicly traded on the Canadian National Stock Exchange and TSX Venture Exchange, respectively.

During the year ended December 31, 2015, the Company impaired the carrying value of the 15,151,273 shares of Portex to \$nil; as a result of the impairment, the Company believe price risk from the investment in Portex is minimal.

A 10% change in share price of Precipitate's shares at March 31, 2016 would result in a \$3,150 change to the Company's comprehensive loss for the three months ended March 31, 2016.

Other than this, the Company is not exposed to significant other price risk.

Commodity risk

The Company is exposed to price risk with respect to commodity prices, specifically gold. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. Commodity prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for these commodities, the level of interest rates, the rate of inflation, investment decision by large holders of commodities including governmental reserves and stability of exchange rates can all cause significant fluctuations in prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments. As the Company does not have production assets, management believes this risk is minimal.

17. SUBSEQUENT EVENTS

Subsequent to March 31, 2016:

- On April 1, 2016, the Company completed a private placement and issued 14,710,000 common shares at a price of \$0.20 per share for gross proceeds of \$2,942,000 of which \$1,000,000 was received during the three months ended March 31, 2016;
- On May 19, 2016, the Company announced that it has entered into an agreement with a syndicate of underwriters led by Cormark Securities Inc., pursuant to which the underwriters have agreed to purchase 15,625,000 common shares at a price of \$0.32 per common Share of the Company, on a bought deal private placement basis, for aggregate gross proceeds to the Company of \$5,000,000 (the "Offering"). The Company has also granted the underwriters an option to purchase up to 15% of the number of Common Shares sold pursuant to the Offering, exercisable at any time prior to the Closing Date. The Offering is scheduled to close on or about June 9, 2015 and is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory and other approvals including the approval of the TSX Venture Exchange; and
- 545,455 finder's unit purchase warrants were exercised for proceeds of \$60,000. The Company issued 545,455 common shares and 272,727 warrants with an exercise price of \$0.18. The warrants have an expiry date of November 6, 2018.
