

GOLDQUEST MINING CORP.

Consolidated Financial Statements

FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(Expressed in Canadian Dollars)

DAVIDSON & COMPANY LLP ____ Chartered Accountants =

INDEPENDENT AUDITORS' REPORT

To the Shareholders of Goldquest Mining Corp.

We have audited the accompanying consolidated financial statements of Goldquest Mining Corp., which comprise the consolidated statements of financial position as at December 31, 2014 and 2013 and the consolidated statements of loss and comprehensive loss, changes in equity, and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Goldquest Mining Corp. as at December 31, 2014 and 2013 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

See accompanying notes to these consolidated financial statements.

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

GoldQuest Mining Corp. (the "Company" or "GoldQuest") is a publicly listed company incorporated in British Columbia on July 12, 1989 and its shares are listed on the TSX Venture Exchange under the symbol "GQC". The Company together with its subsidiaries (collectively referred to as the "Company") is engaged in the identification, acquisition and exploration of mineral properties in the Dominican Republic. The Company's registered office is located at Suite 2600, 595 Burrard Street, Vancouver, British Columbia, V7X 1L3.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of evaluation and exploration properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values. The Company's exploration assets are located outside of Canada and are subject to the risk of foreign investment, including political uncertainty, increases in taxes and royalties, renegotiation of contracts and currency exchange fluctuations.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, other land claims and non-compliance with regulatory and environmental requirements.

These consolidated financial statements have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at December 31, 2014, the Company had not advanced its property to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to funds operating costs over the next twelve months with cash and cash equivalents and through further equity financings.

The consolidated financial statements of GoldQuest for the year ended December 31, 2014 were approved by the Board of Directors on April 28, 2015.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

a) Statement of compliance with International Financial Reporting Standards

These consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The policies set out below were consistently applied to all periods presented unless otherwise noted below.

These consolidated financial statements have been prepared on a historical cost basis except for financial instruments carried at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

b) Basis of preparation

These consolidated financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation and that are effective on December 31, 2014.

Comparative figures

Certain comparative figures have been reclassified to conform to the current year's presentation.

c) Basis of consolidation

These consolidated financial statements comprise the accounts of the Company and the following wholly-owned subsidiaries of the Company:

- GoldQuest Mining (BVI) Corp., a company incorporated under the laws of British Virgin Islands ("BVI");
- Goldquest Dominicana SRL (formerly known as INEX Ingeniería y Exploración S.A.), a company incorporated under the laws of Dominican Republic.

All subsidiaries have a reporting date of December 31.

i. Subsidiaries

A subsidiary is an entity over which the Company has power to govern the operating and financial policies in order to obtain benefits from its activities. The consolidated financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

ii. Acquisitions and disposals

The results of businesses acquired during the reporting period are brought into the consolidated financial statements from the date the control is transferred; the results of businesses sold during the reporting period are included in the consolidated financial statements for the period up to the date the control is ceased.

Gains or losses on disposal are calculated as the difference between the sale proceeds (net of expenses) and the net assets attributable to the interest which has been sold. Where a disposal represents a separate major line of business or geographical area of operations, the net results attributable to the disposed entity are shown separately in the statement of loss and comprehensive loss.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

d) Significant management judgment and estimates in applying accounting policies

CRITICAL ACCOUNTING ESTIMATES

Impairment of evaluation and exploration assets

While assessing whether any indications of impairment exist for evaluation and exploration assets, consideration is given to both external and internal sources of information. Information the Company considers includes changes in the market, economic and legal environment in which the Company operates that are not within its control that could affect the recoverable amount of evaluation and exploration assets. Internal sources of information include the manner in which evaluation and exploration assets are being used or are expected to be used and indications of expected economic performance of the assets. Estimates include but are not limited to estimates of the discounted future after-tax cash flows expected to be derived from the Company's mining properties, costs to sell the properties and the appropriate discount rate. Reductions in metal price forecasts, increases in estimated future costs of production, increases in estimated future capital costs, reductions in the amount of recoverable mineral reserves and mineral resources and/or adverse current economics can result in a write-down of the carrying amounts of the Company's evaluation and exploration assets.

Share-based payments

Management determines costs for share-based payments using market-based valuation techniques. The fair value of the market-based and performance-based share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

Income taxes and recoverability of potential deferred tax assets

In assessing the probability of realizing income tax assets recognized, management makes estimates related to expectations of future taxable income, applicable tax planning opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified. Estimates of future taxable income are based on forecasted cash flows from operations and the application of existing tax laws in each jurisdiction. The Company considers whether relevant tax planning opportunities are within the Company's control, are feasible, and are within management's ability to implement. Examination by applicable tax authorities is supported based on individual facts and circumstances of the relevant tax position examined in light of all available evidence. Where applicable tax laws and regulations are either unclear or subject to ongoing varying interpretations, it is reasonably possible that changes in these estimates can occur that materially affect the amounts of income tax assets recognized. Also, future changes in tax laws could limit the Company from realizing the tax benefits from the deferred tax assets. The Company reassesses unrecognized income tax assets at each reporting period.

Contingencies

Contingencies are discussed in Note 13(b).

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

d) Significant management judgment and estimates in applying accounting policies (continued)

CRITICAL ACCOUNTING JUDGMENTS

Critical accounting judgments are accounting policies that have been identified as being complex or involving subjective judgments or assessments.

In accordance with IAS 21 "The Effects of Changes in Foreign Exchange Rates", management determined that the functional currency of the Company and its subsidiaries is the Canadian dollar, as this is the currency of the primary economic environment in which the Company operates.

The preparation of these financial statements requires management to make judgments regarding the going concern of the Company as discussed in Note 1.

e) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits held on call with banks, highly liquid investments that are readily convertible into a known amount of cash and which are subject to insignificant risk of changes in value, net of bank overdrafts which are repayable on demand. Cash and cash equivalents normally have a term to maturity of three months or less from the date of acquisition.

f) Financial instruments

Financial assets

Financial assets are initially recorded at fair value and designated upon inception into one of the following four categories: held-to-maturity, available-for-sale, loans and receivables or at fair value through profit or loss ("FVTPL").

Financial assets classified as loans and receivables are measured at amortized cost less impairment. The Company has classified its cash and amounts receivable as loans and receivables.

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through earnings. The Company has classified its cash equivalents as FVTPL.

Financial assets classified as held-to-maturity are measured at amortized cost. The Company has no financial assets classified as held-to-maturity.

Financial assets classified as available-for-sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income (loss) except for losses in value that are considered other than temporary. The Company has classified its long-term investment as available-for-sale.

Transaction costs associated with FVTPL financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

f) Financial instruments (continued)

Financial liabilities

Financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or classified as other financial liabilities.

Financial liabilities classified as other financial liabilities are initially recognized at fair value less directly attributable transaction costs. Subsequently, they are measured at amortized cost using the effective interest method. The Company has classified its accounts payable and accrued liabilities as other financial liabilities.

Financial liabilities classified as FVTPL include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as FVTPL. Fair value changes on financial liabilities classified as FVTPL are recognized through the statement of loss. The Company has no financial liabilities classified as FVTPL.

Derecognition of financial assets and liabilities

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- The rights to receive cash flows from the asset have expired.
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of loss.

Impairment of financial assets

The Company assesses at each financial reporting date whether a financial asset is impaired.

Financial assets carried at amortized cost

If there is objective evidence that an impairment loss on loans and receivables and held-to-maturity investments carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred, discounted at the effective interest rate computed at initial recognition. The carrying amount of the asset is reduced and the amount of the loss is recognized in profit or loss. Objective evidence of impairment of loans and receivables exists if the counterparty is experiencing significant financial difficulty, there is a breach of contract, concessions are granted to the counter-party that would not normally be granted, or it is probable that the counter-party will enter into bankruptcy or a financial reorganization.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

g) Taxation

Income tax on the profit or loss for the years presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes; the initial recognition of assets or liabilities that affect neither accounting or taxable profit; and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position reporting date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

h) Loss per share

Basic loss per share is calculated using the weighted-average number of shares outstanding during the year. The diluted earnings (loss) per share reflects the potential dilution of common share equivalents, such as outstanding stock options and warrants, in the weighted average number of common shares outstanding during the period, if dilutive.

i) Share-based payments

Share-based payment transactions

Employees (including directors and senior executives) of the Company, and individuals providing similar services to those performed by direct employees, receive a portion of their remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions"). The costs of equity-settled transactions with employees are measured by reference to the fair value at the date on which they are granted.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at the fair value of the share-based payment. Otherwise, share-based payments issued to non-employees are measured at the fair value of goods or services received.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

i) Share-based payments (continued)

Equity-settled transactions

The costs of equity-settled transactions are recognized, together with a corresponding increase in equity, over the year in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the "vesting date"). The cumulative expense is recognized for equity-settled transactions at each reporting date until the vesting date reflects the Company's best estimate of the number of equity instruments that will ultimately vest. The profit or loss charge or credit for a year represents the movement in cumulative expense recognized as at the beginning and end of that year and the corresponding amount is represented in stock option reserve. No expense is recognized for awards that do not ultimately vest. For those awards that expire after vesting, the recorded value is transferred to other reserve.

Where the terms of an equity-settled award are modified, the minimum expense recognized is the expense as if the terms had not been modified. An additional expense is recognized for any modification which increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee as measured at the date of modification.

The dilutive effect of outstanding options is reflected as additional dilution in the computation of earnings per share unless it is considered to be anti-dilutive.

Other reserve

Other reserve records the fair value of the expired options and warrants initially recorded in stock options reserve and warrants reserve.

Warrants reserve

The warrants reserve records the grant date fair value of the warrants issued until such time that the warrants are exercised, at which time the corresponding amount will be transferred to share capital. If the warrants expire unexercised, the amount recorded is transferred to other reserve.

Stock options reserve

The stock options reserve records items recognized as share-based payments expense until such time that the stock options are exercised, at which time the corresponding amount will be transferred to share capital. If the options expire unexercised, the amount recorded is transferred to other reserve.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

j) Evaluation and exploration

Evaluation and exploration assets

Evaluation and exploration assets include acquired mineral rights for mineral exploration properties held by the Company. The amount of consideration paid (in cash or share value) for mineral rights is capitalized. The amounts shown for evaluation and exploration assets represent costs of acquisition, other than transaction costs, incurred to date, less recoveries, and do not necessarily reflect present or future values. These costs will be amortized against revenue from future production or written off if the evaluation and exploration assets are abandoned or sold. Included in the cost of evaluation and exploration assets is the cost of any estimated decommissioning liability. The Company has classified evaluation and exploration assets as intangible in nature. Depletion of costs capitalized on projects put into commercial production will be recorded using the unit-of-production method based upon reserves.

Ownership in evaluation and exploration assets involves certain inherent risks, including geological, metal prices, operating costs, and permitting risks. Many of these risks are outside the Company's control. The ultimate recoverability of the amounts capitalized for the evaluation and exploration assets is dependent upon the delineation of economically recoverable ore reserves, obtaining the necessary financing to complete their development, obtaining the necessary permits to operate a mine, and realizing profitable production or proceeds from the disposition thereof. Management's estimates of recoverability of the Company's investment in its evaluation and exploration assets have been based on current and expected conditions. However, it is possible that changes could occur which could adversely affect management's estimates and may result in future write downs of evaluation and exploration assets carrying values.

Evaluation and exploration costs

Evaluation and exploration costs, other than those described above, are expensed as incurred until such time as mineral reserves are proven or probable, permits to operate the mineral resource property are received and financing to complete development has been obtained. Following confirmation of mineral reserves, receipt of permits to commence mining operations and obtaining necessary financing, evaluation and exploration costs are capitalized as deferred development expenditures included within equipment.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

k) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's cash-generating unit's ("CGU") fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the asset is tested as part of a larger CGU. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

For evaluation and exploration assets, indicators of impairment would include expiration of a right to explore, no budgeted or planned material expenditure in an area, or a decision to discontinue exploration in a specific area.

Impairment losses of continuing operations are recognized in net loss in those expense categories consistent with the function of the impaired asset.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or CGU) in prior years.

I) Currency translation

The presentation currency and the functional currency of the Company and each of its subsidiaries is the Canadian dollar.

The functional currency for each entity in the Company is determined as the currency of the primary economic environment in which it operates. Transactions other than those in the functional currency of the entity are translated at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in currencies other than the functional currency are translated at year end exchange rates. Gains and losses on translation are included in net profit or loss for the year.

The functional currency of the entities in the Company has remained unchanged during the reporting year.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

m) Equipment

Equipment and vehicles are initially recognized at cost. As well as the purchase price, cost includes directly attributable costs and the estimated present value of any future costs of dismantling and removing items. The corresponding liability is recognized within provisions. All items of equipment and vehicles are subsequently carried at depreciated cost less impairment losses, if any.

Depreciation is provided on all items of equipment and vehicles to write off the carrying value of items over their expected useful economic lives. Depreciation is provided on a straight line basis over the estimated useful lives of the equipment at the following annual rates:

- Computer Equipment 15%
- Office and Field Equipment 10% or 30%
- Software 100%
- Vehicles 25%

Material residual value estimates and estimates of useful life are updated as required, but at least annually.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset as appropriate, only when it's probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replacement part is derecognized. All other repairs and maintenance are charged to the consolidated statements of loss during the financial year in which they are incurred.

n) Employee benefits

Wages, salaries and annual vacation leave

Liabilities arising in respect of wages and salaries, vacation leave and any other employee benefits expected to be settled within twelve months of the financial position reporting date are measured at undiscounted amounts based on remuneration rates which are expected to be paid when the liabilities are settled. In respect of employees' services up to the financial position reporting date, wages and salaries are recognized in trade and other payables and other employee benefits including annual vacation leave are recognized in current provisions.

Employee and management bonus plans

A liability is recognized for the amount expected to be paid under the Company's bonus plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably. Where the effect is material, the liabilities for bonus payments not expected to be settled within twelve months are discounted using a pretax risk-free rate, which most closely match the terms of maturity of the related liabilities.

Bonus liabilities expected to be settled within twelve months of the consolidated statement of financial position date are recognized in current provisions, and those that are not expected to settle within twelve months are recognized in non-current provisions.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

o) Decommissioning liability

The Company records the present value of estimated costs of legal and constructive obligations required to restore operating locations in the year in which the obligation is incurred. The nature of these restoration activities includes dismantling and removing structures, rehabilitating mines and tailings dams, dismantling operating facilities, closure of plant and waste sites, and restoration, reclamation and re-vegetation of affected areas.

The obligation generally arises when the asset is installed or the ground / environment is disturbed at the production location. When the liability is initially recognized, the present value of the estimated costs is capitalised by increasing the carrying amount of the related mining assets to the extent that it was incurred by the development / construction of the mine. Over time, the discounted liability is increased for the change in present value based on the discount rates that reflect current market assessments and the risks specific to the liability.

The periodic unwinding of the discount is recognized in profit or loss as a finance cost. Additional disturbances or changes in rehabilitation costs will be recognized as additions or charges to the corresponding assets and rehabilitation liability when they occur.

For closed sites, changes to estimated costs are recognized immediately in profit or loss.

p) Contingencies

Contingent assets

Contingent assets are not recognized in the financial statements but they are disclosed by way of a note if they are deemed probable.

Contingent liabilities

Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company. Contingent liabilities are recognized in the financial statements unless the possibility of an outflow of economic resources is considered remote, in which case they are disclosed in the notes to the consolidated financial statements.

3. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

New standards adopted during the year

Effective January 1, 2014, the following standards were adopted but did not have a material impact on the financial statements.

- IAS 32 (Amendment): Standard amended to clarify requirements for offsetting financial assets and financial liabilities.
- IFRS 10 Investment Entities Amendment.

New standards and interpretations not yet adopted

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for future accounting periods. The following have not yet been adopted by the Company and are being evaluated to determine their impact.

- IFRS 7: Amended to require additional disclosures on transition from IAS 39 and IFRS 9, effective for annual periods beginning on or after January 1, 2015.
- IFRS 9: New standard that replaced IAS 39 for classification and measurement, tentatively effective for annual periods beginning on or after January 1, 2018.

4. CASH AND CASH EQUIVALENTS

The Company's cash and cash equivalents are broken down as follows:

	December 31, 2014	December 31, 2013
Cash	\$ 5,589,051 \$	10,866,946
Term deposits	35,000	35,000
	\$ 5,624,051 \$	10,901,946

5. AMOUNTS RECEIVABLE

The Company's amounts receivable are broken down as follows:

	December 31, 2014	December 31, 2013
Harmonized sales tax receivable and value-added tax receivable	\$ 20,840	\$ 29,056
Other receivables	3,496	40,289
	\$ 24,336	\$ 69,345

6. LONG-TERM INVESTMENT

On April 30, 2012, the Company received 15,151,273 shares of Portex with a fair value of \$909,076 in exchange for the sale of its wholly owned entities with business interests in Spain.

As at December 31, 2014, the Company recognized \$75,756 as the fair value of the 15,151,273 common shares received from Portex (December 31, 2013 - \$1,060,589). The change in fair value of \$984,833 for the year ended December 31, 2014 is recognized as other comprehensive loss (December 31, 2013 – other comprehensive income of \$151,513).

During the year ended December 31, 2014, management determined that there was objective evidence that 15,151,273 shares of Portex were impaired and accordingly, the cumulative losses previously recognized in other comprehensive loss were reclassified to net loss and the Company recognized an impairment loss of \$833,320 (December 31, 2013 – \$nil).

As at December 31, 2014

	Number of shares	Closing market price	Fair value
Portex Minerals Inc.	15,151,273 \$	0.005	\$ 75,756

As at December 31, 2013

	Number of shares	Closing market price	Fair value
Portex Minerals Inc.	15,151,273 \$	0.070	\$ 1,060,589

7. EQUIPMENT

The Company's equipment is broken down as follows:

	Computer			Office

During the year ended December 31, 2013, the Company disposed of office equipment with a net book value of \$1,100 for cash proceed of \$500.

8. EVALUATION AND EXPLORATION ASSETS

The Company's evaluation and exploration assets are broken down as follows:

	Ва	alance as at			Balance as at				Balance as at	
	Dece	mber 31, 2012	Additions		Dec	ember 31, 2013	Additions		Dece	mber 31, 2014
Dominican Republic	\$	1,247,000 \$		-	\$	1,247,000 \$		-	\$	1,247,000

Dominican Republic - 100% owned

On August 5, 2009, the Company entered into a purchase agreement with Gold Fields Dominican Republic BVI Limited ("GFL") to regain full ownership of its gold-focused portfolio in the Dominican Republic. As consideration for GFL's interest in the joint venture projects, the Company issued 8,600,000 common shares and granted a 1.5% Net Smelter Royalty ("NSR") on the claims in favour of GFL.

The transaction was completed on November 18, 2009 with the issuance of the shares at an estimated fair value of \$1,247,000.

9. EVALUATION AND EXPLORATION COSTS

The Company's evaluation and exploration costs during the years ended December 31, 2014 and 2013 related to projects in the Dominican Republic are broken down as follows:

For the	/ear	ended	Decem	her	31	2014

Cumulative costs, beginning of year 12,579,307
Cumulative costs, end of year \$ 17,824,237

10. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The Company's accounts payable and accrued liabilities are broken down as follows:

	December 31, 2014	December 31, 2013
Trade payables	\$ 205,600 \$	281,478
Accrued liabilities	35,536	106,167
	\$ 241,136 \$	387,645

11. SHARE CAPITAL

a) Authorized share capital

Unlimited number of common shares without par value.

b) Issued share capital

At December 31, 2014, the Company had 145,755,044 common shares issued and outstanding with a value of \$37,571,448 (December 31, 2013 – 143,980,044 with a value of \$37,253,320).

During the year ended December 31, 2014:

- i. The Company issued 75,000 common shares for proceeds of \$7,500 due to the exercise of stock options. In addition, the Company has reclassified the grant date fair value of the exercised options of \$6,362 from stock options reserve to share capital.
- ii. The Company issued 1,700,000 common shares for proceeds of \$255,000 due to the exercise of warrants. In addition, the Company has reclassified the grant date fair value of the exercised warrants of \$49,266 from warrants reserve to share capital.

11. SHARE CAPITAL (continued)

c) Warrants

The changes in warrants during the years ended December 31, 2014 and 2013 are as follows:

-	December 31, 2014			December 31, 2013				
-	Number outstanding	W	eighted average exercise price	Number outstanding	W	Veighted average exercise price		
Balance, beginning of year	3,289,855	\$	0.46	3,289,855	\$	0.46		
Expired	(1,589,855)		0.79	-		-		
Exercised	(1,700,000)		0.15	-		-		
Balance, end of year	-	\$	-	3,289,855	\$	0.46		

During the year ended December 31, 2014, 1,589,855 warrants expired with a value of \$1,508,173 and were reclassified from warrants reserve to other reserve.

d) Stock options

Under the Company's stock option plan, the Board of Directors may grant options for the purchase of up to a total of 10% of the total number of issued and outstanding common shares of the Company. Options granted under the plan may vest over a period of time at the discretion of the board of directors. Under the plan, the exercise price of each option equals the market price of the Company's stock as determined on the date of grant. The options can be granted for a maximum term of 10 years and vest at the discretion of the Board of Directors.

Options to purchase common shares have been granted to directors, employees and consultants at exercise prices determined by reference to the market value of the Company's common shares on the date of the grant. The changes in options during the years ended December 31, 2014 and 2013 are as follows:

	December	December 31, 2014			December 31, 2013			
	Number outstanding	•	hted average exercise price	Number outstanding	We	eighted average exercise price		
Balance, beginning of year	12,828,330	\$	0.40	7,586,669	\$	0.42

Expired	(51,667)		0.57	-		-		
Forfeited	(10,500)		0.25	(225,000)		0.48		
Exercised	(75,000)		0.10	(68,339)		0.50		
Balance, end of year	12,856,163	\$	0.40	12,828,330	\$	0.40		

11. SHARE CAPITAL (continued)

During the year ended December 31, 2014:

- On May 14, 2014, the Company granted 165,000 options with an exercise price of \$0.31 to certain officers and employees. The options are exercisable for a period of five years. One-third vest six months from the date of grant and one-third will vest every six months thereafter.
- During the year ended December 31, 2014, 51,667 options expired for a value of \$20,900 and were reclassified from stock options reserve to other reserve.

During the year ended December 31, 2013:

- On March 11, 2013, the Company granted 2,625,000 options with an exercise price of \$0.50 to certain officers, directors, employees and consultants. The options are exercisable for a period of five years. One-third vest six months from the date of grant and one-third will vest every six months thereafter.
- On May 22, 2013, the Company granted 500,000 stock options with an exercise price of \$0.35 to a director. The options are exercisable for a period of five years. One-third vest six months from the date of grant and one-third will vest every six months thereafter.
- On December 19, 2013, the Company granted 2,410,000 stock options with an exercise price of \$0.25 to certain officers, directors, employees and consultants. The options are exercisable for a period of five years. One-third vest six months from the date of grant and one-third will vest every six months thereafter.

The following summarizes information about stock options outstanding and exercisable at December 31, 2014:

							Weighted average
		Options	Options		- 1	Estimated grant rem	naining contractual
Grant date	Expiry date	outstanding	exercisable	Exercise price		date fair value	life (in years)
June 1, 2010	June 1, 2015	200,000	200,000 \$	0.140	\$	21,522	0.42
July 16, 2010	July 16, 2015	400,000	400,000 \$	0.140	\$	54,233	0.54

		12,856,163	11,946,333		\$	4,443,067	2.54

11. SHARE CAPITAL (continued)

d) Stock options (continued)

The estimated grant date fair value of the options granted during the years ended December 31, 2014 and 2013 was calculated using the Black-Scholes option pricing model with the following weighted average assumptions:

	For the year ended				
		December 31, 2014	D	ecember 31, 2013	
Number of options granted		165,000		5,535,000	
Risk-free interest rate		1.35%		1.42%	
Expected annual volatility		130%		137%	
Expected life		5.00		5.00	
Expected dividend yield		0.00%		0.00%	
Grant date fair value per option	\$	0.27	\$	0.28	
Share price at grant date	\$	0.31	\$	0.33	

During the years ended December 31, 2014 and 2013, the Company recognized share-based payments expense of \$708,990 and \$1,275,282, respectively. For the years ended December 31 2014 and 2013, share-based payments expense consists of the following:

	For the year ended					
	Decer	mber 31, 2014	December 31, 2013			
For services in respect of:						
Directors' fees	\$	257,214	\$	411,372		
Investor relations		-		14,844		
Management fees		379,197		736,559		
Mineral property expenditures		-		3,034		
Salaries and wages		72,579		109,473		
	\$	708,990	\$	1,275,282		

e) Earnings (loss) per share

The Company calculated the basic earnings (loss) per share by using the weighted-average number of shares outstanding during the period. The diluted earnings per share reflects the potential dilution of common share equivalents, such as outstanding stock options and warrants, in the weighted average number of common shares outstanding during the period. In determining the weighted average number of common shares outstanding during the period for the diluted loss per share, warrants and options are not included as the impact would be anti-dilutive.

12. RELATED PARTY TRANSACTIONS AND BALANCES

The financial statements include the accounts of GoldQuest Mining Corp. and its subsidiaries listed in the following table:

		Equity Onw	ership as at
Name	Country of Incorporation De	cember 31, 2014	December 31, 2013
GoldQuest Mining (BVI) Corp Goldquest Dominicana SRL (formerly	British Virgin Islands	100%	100%
known as INEX Ingeniería y Exploración S.A.)	Dominican Republic	100%	100%

Balances and transactions between the Company and its subsidiaries have been eliminated on consolidation and are not disclosed in this note.

a) Related Party Transactions

The Company's related parties as defined by IAS 24, *Related Party Disclosures*, include the Company's subsidiaries (above), and the following directors, executive officers, key management personnel, and enterprises which are controlled by these individuals:

Related Party	Relationship
William Fisher	Executive Chairman
Frank Balint	Director
Patrick Michaels	Director
Florian Siegfried	Director
Julio Espaillat	Director, President and CEO
Paul Robertson	CFO
Quantum Advisory Partners LLP	A partnership in which the CFO is a partner
Jeremy Niemi	Vice President, Exploration
Felix Mercedes	Country Manager, Dominican Republic

The Company considered the executive officers and directors as the key management of the Company.

12. RELATED PARTY TRANSACTIONS AND BALANCES (continued)

a) Related Party Transactions (continued)

Total compensation of key company personnel for the years ended December 31, 2014 and 2013 is as follows:

	For the year ended				
		December 31, 2014		December 31, 2013	
Directors' fees	\$	84,000	\$	71,747	
Management fees, salaries and wages		787,770		844,097	
Share-based compensation		636,411		1,147,940	
	\$	1,508,181	\$	2,063,784	

During the year ended December 31, 2014, the Company paid professional fees of \$55,346 (December 31, 2013 – \$77,894) to Quantum Advisory Partners LLP, a partnership in which the CFO is an incorporated partner, for other professional services including corporate secretarial, transaction support and tax compliance.

b) Related party balances

The balances due to the Company's directors and officer included in accounts payables and accrued liabilities were \$27,020 as at December 31, 2014 (December 31, 2013 – \$86,189), which were paid subsequent to year end. These amounts are unsecured, non-interest bearing and payable on demand.

13. COMMITMENTS AND CONTINGENCIES

a) Commitments

The Company is a party to certain management contracts. These contracts contain clauses requiring that \$1,434,000 be paid upon a change of control of the Company. As the likelihood of these events taking place is not determinable, the contingent payments have not been reflected in these consolidated financial statements.

b) Contingencies

Lawsuit

In August 2014, the Company received notice of a civil lawsuit filed with the Commercial and Civil Chamber of the Courts of First Instance in the city of San Juan de La Maguana, Dominican Republic. The lawsuit alleges that the Company entered the claimants' property without authorization, damaged crops, drove out livestock, and extracted gold. The claimants are seeking, amongst other things, damages totaling USD\$5,000,000 relating to the surface damage and the extraction of gold from the property in question.

The Company is of the view that any minor surface disturbances were fully remediated and that the Company was in full compliance with the conditions of both its exploration concession and environmental permits issued by the Dominican government. No amount has been provided for in these financial statements for this claim because it is too early to predict the outcome of this lawsuit; however, management's view is that the claim against the Company is without merit.

14. SEGMENTED INFORMATION

The Company has one reportable segment, being the evaluation and exploration of mineral exploration properties in one geographic region: Dominican Republic. The Company's assets and liabilities are as follows:

	Canada	Republic	Total
As at December 31, 2014			
Evaluation and exploration assets	\$ -	\$ 1,247,000	\$ 1,247,000
Long-term investment	75,756	-	75,756
Equipment	97,795	67,400	165,195
Other assets	5,482,031	394,788	5,876,819
Liabilities	(182,640)	(58,496)	(241,136)
	\$ 5,472,942	\$ 1,650,692	\$ 7,123,634
As at December 31, 2013			
Evaluation and exploration assets	\$ -	\$ 1,247,000	\$ 1,247,000
Long-term investment	1,060,589	-	1,060,589
Equipment	152,752	117,260	270,012
Other assets	10,838,829	309,425	11,148,254
Liabilities	(232,910)	(154,735)	(387,645)
·	\$ 11,819,260	\$ 1,518,950	\$ 13,338,210

	Canada	Dominican Republic	Total
Comprehensive loss:			
For the year ended December 31, 2014	\$ 5,253,013 \$	1,933,053	\$ 7,186,066
For the year ended December 31, 2013	\$ 5,871,700 \$	1,983,687	\$ 7,855,387

15. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue the evaluation and exploration of its mineral exploration properties and to maintain a flexible capital structure, which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes the components of share capital.

There were no changes to the Company policy for capital management during the year ended December 31, 2014.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, acquire or dispose of assets, or adjust the amount of cash and cash equivalents and short-term investments. In order to maximize ongoing development efforts, the Company does not pay out dividends. The Company and its subsidiaries are not subject to any externally imposed capital requirements.

15. CAPITAL MANAGEMENT (continued)

The Company's investment policy is to invest its excess cash in very low risk financial instruments such as term deposits or by holding funds in high yield savings accounts with major Canadian banks. By using this strategy the Company preserves its cash resources and is able to marginally increase these resources through the yields on these investments. The Company's financial instruments are exposed to certain financial risks, which include currency risk, credit risk, liquidity risk and interest rate risk.

The Company expects that its current capital resources will be sufficient to fund its present operational commitments and working capital needs for the coming twelve months.

16. FINANCIAL INSTRUMENTS

a) Fair value

The carrying values of cash and cash equivalents, amounts receivable, and accounts payable and accrued liabilities approximate their fair values due to the relatively short period to maturity of those financial instruments. Long-term investment is determined by the closing market price of the securities held by the Company.

As at December 31, 2014:

	L	oans and receivables		Assets at fair value	Availabe-for-sale	
		and other liabilities	1	through profit or loss	assets	Total
Cash and cash equivalents	\$	5,589,051	\$	35,000	\$ -	\$ 5,624,051
Amounts receivable		3,496		-	-	3,496
Long-term investment		-		-	75,756	75,756
Accounts payable and accrued liabilities		241,136		-	-	241,136

As at December 31, 2013:

	L	oans and receivables		Assets at fair value	Availabe-for-sale	
		and other liabilities	1	through profit or loss	assets	Total
Cash and cash equivalents	\$	10,866,946	\$	35,000	\$ -	\$ 10,901,946
Amounts receivable		40,289		-	-	40,289
Long-term investment		-		-	1,060,589	1,060,589
Accounts payable and accrued liabilities		387,645		-	-	387,645

16. FINANCIAL INSTRUMENTS (continued)

a) Fair value (continued)

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs that are not based on observable market data.

As at December 31, 2014 and 2013, the financial instruments recorded at fair value on the consolidated statement of financial position are cash equivalents which are measured using Level 2 of the fair value hierarchy and long term investments measured using Level 1 of the fair value hierarchy.

b) Financial risk management

Credit risk

The Company is exposed to credit risk with respect to its cash and cash equivalents. Cash and cash equivalents have been placed on deposit with major Canadian and Dominican financial institutions.

The risk arises from the non-performance of counterparties of contractual financial obligations. The Company's cash and cash equivalents are mainly held through large Canadian institutions and at December 31, 2014 are mainly held in savings accounts and accordingly credit risk in minimized.

The Company manages credit risk, in respect of cash and cash equivalents, by purchasing term deposits held at a major Canadian financial institution.

Concentration of credit risk exists with respect to the Company's cash and cash equivalents as the majority of the amounts are held at a single Canadian financial institution. The Company's concentration of credit risk and maximum exposure thereto is as follows:

December 31, 3		
\$	5,369,983	
	35,000	
	5,404,983	
\$	219,068	
\$	5,624,051	

The credit risk associated with cash and cash equivalents is minimized by ensuring the majority of these financial assets are held with major Canadian and Dominican financial institutions with strong investment-grade ratings by a primary rating agency.

16. FINANCIAL INSTRUMENTS (continued)

b) Financial risk management (continued)

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

The Company's expected source of cash flow in the upcoming year will be through equity financings.

The Company maintained sufficient cash and cash equivalents at December 31, 2014 in the amount of \$5,624,051 (December 31, 2013 – \$10,901,946), in order to meet short-term business requirements. At December 31, 2014, the Company had accounts payable and accrued liabilities of \$241,136 (December 31, 2013 – \$387,645). All accounts payable and accrued liabilities are current.

Market risk

The significant market risks to which the Company is exposed are interest rate risk, currency risk and commodity price risk.

Interest rate risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash and cash equivalents are held mainly in high yield saving accounts and term deposits and therefore there is currently minimal interest rate risk. Because of the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of December 31, 2014.

The Company's interest rate risk principally arises from the interest rate impact of interest earned on cash and cash equivalents. A 1% change in interest rates on cash and cash equivalents outstanding at December 31, 2014 would result in a \$56,241 change to the Company's net loss for the year ended December 31, 2014 (December 31, 2012 – \$109,020).

Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities and long-term investment are held in Canadian Dollars ("CAD"), US Dollars ("USD") and Dominican Pesos ("DOP"); therefore, USD and DOP accounts are subject to fluctuation against the Canadian dollar.

16. FINANCIAL INSTRUMENTS (continued)

b) Financial risk management (continued)

Currency risk (continued)

The Company had the following balances in foreign currency as at December 31, 2014:

	in CAD	in USD	in DOP	
Cash and cash equivalents	3,288,360	1,992,880	714,227	
Amounts receivable	88	-	131,064	
Long-term investment	75,756	-	-	
Accounts payable and accrued liabilities	(171,942)	(9,201)	(2,249,848)	
	3,192,262	1,983,679	(1,404,557)	
Rate to convert to \$1.00 CAD	1.000	0.8601	38.4615	
Equivalent to Canadian dollars	3,192,262	2,306,424	(36,518)	

Based on the above net exposures as at December 31, 2014, and assuming that all other variables remain constant, a 10% appreciation or depreciation of the CAD against the USD and DOP would have had the following impact:

	Additional foreign exchange gain (loss) (before tax) (in CAD)						
		USD	DOP	Total			
For the year ended December 31, 2014							
If CAD appreciated by 10%	\$	230,642 \$	(3,652) \$	226,990			
If CAD depreciated by 10%		(230,642)	3,652	(226,990)			

The Company had the following balances in foreign currency as at December 31, 2013:

	in CAD	in USD	in DOP	
Cash and cash equivalents	5,927,199	4,640,883	475,167	
Amounts receivable	38,622	-	67,236	
Long-term investment	1,060,589	-	-	
Accounts payable and accrued liabilities	(226,363)	(6,122)	(6,239,254)	
	6,800,047	4,634,761	(5,696,851)	
Rate to convert to \$1.00 CAD	1.000	0.9351	40.3226	
Equivalent to Canadian dollars	6,800,047	4,956,413	(141,282)	

16. FINANCIAL INSTRUMENTS (continued)

b) Financial risk management (continued)

Currency risk (continued)

Based on the above net exposures as at December 31, 2013, and assuming that all other variables remain constant, a 10% appreciation or depreciation of the CAD against the USD and DOP would have had the following impact:

	Additional foreign exchange gain (loss) (before tax) (in CAD)						
		USD	DOP	Total			
For the year ended December 31, 2013							
If CAD appreciated by 10%	\$	495,641 \$	(14,128) \$	481,513			
If CAD depreciated by 10%		(495,641)	14,128	(481,513)			

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from interest rate risk, financial market risk, or currency risk.

As at December 31, 2014, the Company held 15,151,273 common shares (December 31, 2013 – 15,151,273 common shares) of Portex which is publicly traded on the Canadian National Stock Exchange. A 10% change in share price of Portex's shares at December 31, 2014 would result in a \$7,576 change to the Company's comprehensive loss for the year ended December 31, 2014 (December 31, 2013 - \$106,059).

Commodity risk

The Company is exposed to price risk with respect to commodity prices, specifically gold. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. Commodity prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for these commodities, the level of interest rates, the rate of inflation, investment decision by large holders of commodities including governmental reserves and stability of exchange rates can all cause significant fluctuations in prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments. As the Company does not have production assets, management believes this risk is minimal.

17. INCOME TAXES

A reconciliation of income taxes at statutory rates with the reported taxes is as follows:

	2014	2013
Loss for the year	\$ (7,034,553) \$	(8,006,900)
Expected income tax (recovery)	\$ (1,829,000) \$	(2,062,000)
Change in statutory, foreign tax, foreign exchange rates and other Permanent Difference	6,000 666,000	(244,000) 1,162,000
Adjustment to prior years provision versus statutory tax returns and expiry of non-capital losses	(108,000)	-
Change in unrecognized deductible temporary differences	1,265,000	1,144,000
Total income tax expense (recovery)	\$ - \$	-

The Canadian income tax rate declined/increased during the year due to changes in the law that reduced/increased corporate income tax rates in Canada/British Columbia.

The significant components of the Company's deferred tax assets that have not been included on the consolidated statement of financial position are as follows:

	2014	2013
Deferred Tax Assets (liabilities)		
Exploration and evaluation assets	\$ 795,000 \$	969,000
Property and equipment	49,000	67,000
Share issue costs	164,000	260,000
Marketable securities	108,000	-
Non-capital losses available for future period	4,431,000	2,986,000
	5,547,000	4,282,000
Unrecognized deferred tax assets	(5,547,000)	(4,282,000)
Net deferred tax assets	\$ - \$	-

17. INCOME TAXES

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the consolidated statement of financial position are as follows:

		2014	Expiry Date Range	;	2013	Expiry Date Range
Temporary Differences						
Exploration and evaluation assets	\$	3,057,000	No expiry date	\$	3,728,000	No expiry date
Property and equipment		187,000	No expiry date		255,000	No expiry date
Share issue costs		631,000	2034 to 2037		998,000	2034 to 2036
Marketable securities		833,000	No expiry date		-	No expiry date
Non-capital losses available for future period	d	16,803,000	2015 to 2034		11,310,000	2014 to 2033
Canada	•	10,660,000	2015 to 2034		8,684,000	2014 to 2033
Dominican Republic		6,143,000	2017 to 2019		2,626,000	2015 to 2023

Tax attributes are subject to review, and potential adjustment, by tax authorities.

18. SUBSEQUENT EVENT

Subsequent to December 31, 2014:

• The Company granted 1,700,000 stock options with an exercise price of \$0.15 to certain officers, directors, employees and consultants.
